Lt. Governor Kim Guadagno Visits Neurohealth Organization

The Center for Neurological and Neurodevelopmental Health (CNNH) welcomed the Lt. Governor to its Gibbsboro facility.

(Gibbsboro, NJ) – New Jersey Lieutenant Governor and Secretary of State Kim Guadagno took time out of her busy schedule to visit The Center for Neurological and Neurodevelopmental Health (CNNH) in Gibbsboro, NJ. Her visit included a tour of the facility, led by CNNH President, CEO and Founder Mark Mintz, M.D. and CNNH Executive Vice President Pnina Mintz, Ph.D., and accompanied by Voorhees Councilman Michael Friedman, CNNH Director of Clinical Development George Niemann, Ph.D., CNNH Director of Operations Brenda MacGhee and CNNH Director of Community Affairs Sandra Lewis, MSS, MLSP.

After the tour, they participated in a roundtable discussion regarding the challenges of health care for the special needs population in New Jersey, and how CNNH’s unique model of care takes an innovative approach to solving those challenges. The Lt. Governor was greatly attentive and offered the support of her office to help those with special needs.

“It cannot be overstated the importance of the work done by places like The Center for Neurological and Neurodevelopmental Health,” said Lt. Governor Guadagno. “I’ve visited similar centers all across this state. And with each visit I walk away inspired by the high level of compassion and dedication to help enrich the lives of individuals with special needs. [Their] important work is essential to supporting a healthy quality of life for New Jersey, and our Administration applauds [their] success in providing services for children, adolescents and adults with neurological conditions.”

Also in attendance were patients of CNNH and their families, who enhanced the dialogue by detailing their personal struggles and providing firsthand accounts of how CNNH’s unique services had an immeasurable impact on their lives.

About CNNH: CNNH was created in 2005 by Dr. Mark Mintz, a pediatric neurologist, in response to what he saw as an inefficient and broken neurohealth care industry. CNNH is an innovative and integrative neurohealth organization, providing diagnostic and treatment services for children, adolescents and adults with neurological, neuropsychological, neuropsychiatric, behavioral, developmental and learning concerns.

Their unique “Specialty Care Medical Home<sup>SM</sup>” model of care brings together a team of experts from all aspects of neurohealth, working collaboratively “all under one roof” to provide the most comprehensive care for each individual. Utilizing the latest in advanced neurotechnology, such as Dense Array Electroencephalography (dEEG)—a non-invasive technology that precisely maps and records the electrical activity of the brain—the CNNH model of care yields accurate diagnoses and more personalized treatment plans.
